

Welcome to our second news brief in May.

Dublin City Local Economic and Community Plan 2016 - 2021 Action Plan 2017

The Dublin City Local Community Development Committee and the Economic Development, Enterprise and International Relations Strategic Policy Committee, would like to invite you to attend a briefing session on **Thursday 1st June 2017 from 6-8pm in the Woodquay Venue, Civic Offices** on the Action Plan 2017 of the Dublin City Local Economic and Community Plan 2016 – 2021.

The event will highlight achievements in 2016 and work underway and planned for 2017. We hope you can join us and help us build on local economic and community development across the City.

Please RSVP to lecp@dublincity.ie or phone 01-2225448.

Ballymun Local Area Plan Make a submission

A draft Local Area Plan (LAP) has been prepared by Dublin City Council for Ballymun. The implementation of the LAP will help safeguard the significant investment made in the area to date and ensure that the regeneration is brought to a successful conclusion.

The LAP will review the progress made in implementing the aims and objectives of the Ballymun Masterplan and provide an updated strategy for the future development and management of the area to meet the needs of the existing and future population.

You can make an online submission before **17th May 2017** at <https://consultation.dublincity.ie/planning/ballymunlap/consultation/intro/>

For further information please contact 01-2223480 or email localareaplan@dublincity.ie

Dodder Flood Alleviation Works Planning Amendment

Dublin City Council is currently engaged in River Dodder Flood Alleviation Works, Phases 2c/2d/2e under a Part 8 planning permission issued in 2013. Part of this project includes works to the western bank of the river Dodder between Herbert Park and Anglesea Bridge (Donnybrook).

Separately, Dublin City Council with the support of the National Transport Authority (NTA) has been developing proposals for a high quality walking and cycling route along the river Dodder. The Dodder Greenway project is a proposed 29km walking and cycling route from Sir John Rogerson's Quay through Grand Canal Dock, Ringsend, Lansdowne, Ballsbridge, Donnybrook, Clonskeagh, Milltown, Rathfarnham, Tallaght and into the Dublin Mountains.

The preferred option for the Dodder Greenway through the Donnybrook area has been identified as a route along the western bank of the River Dodder between Anglesea Bridge (Donnybrook) and Herbert Park. The current proposals for the flood alleviation works in this area would require major alteration in the future to allow for the Dodder Greenway to be provided along this preferred route. Dublin City Council therefore proposes to amend the current proposals for the flood alleviation works between Herbert Park and Anglesea Bridge so that the greenway can be constructed as part of the current on-going flood defences in this area.

As part of the amended works it is proposed:

- To widen a 120m section of the originally planned flood embankment to allow for the construction of a 4m wide walking and cycling route along its length.
- To alter the line of approx.140m, and cantilever over the riverbank approximately 130m, of the originally planned flood wall in order that the walking and cycling route can be constructed between the flood wall and the neighbouring pitches and tennis courts.
- To remove some existing low value trees and provide a new tree planting scheme
- To install a new boundary fence between the walking and cycling route and the neighbouring property belonging to the Leinster

Branch of the IRFU. To provide beech hedging or similar as screening on the Leinster Branch side of the boundary fence

Plans and Particulars of the proposed development may be inspected or purchased at a fee not exceeding the reasonable cost of making a copy until **Tuesday 6th of June 2017** during public opening hours at the offices of Dublin City Council, Public Counter, Planning Department, Block 4, Ground Floor, Civic Offices, Wood Quay, Dublin 8, Monday - Friday 9.00am to 4.30pm. The proposal can also be viewed during opening times at Pembroke Library, Anglesea Road, Dublin 4

A submission or observation in relation to the proposed development, dealing with the proper planning and sustainable development of the area in which the development would be situated may be made, in writing, to the Executive Manager, Planning Department, Dublin City Council, Civic Offices, Wood Quay, Dublin 8, before 4.30pm on Tuesday, **20th of June 2017**.

An online submission can be made before **6th of June 2017** at <https://consultation.dublincity.ie/traffic-and-transport/dodder-flood-alleviation-work/consultation/intro/>
